JELD-WEN

MANUFACTURER'S CERTIFICATION STATEMENT

This Manufacturer's Certification Statement is provided to affirm that certain JELD-WEN® windows that are ENERGY STAR® Most Efficient certified and exterior doors that are ENERGY STAR certified, each for the climate zone in which they are installed, may be eligible for a tax credit under Section 25C of the Internal Revenue Code, as amended by the Inflation Reduction Act of 2022.

There are limits on the allowable annual credit and on the amount of credit for certain types of qualified expenditures as detailed below. The credit is allowed for qualifying property placed in service on or after January 1, 2023, and before January 1, 2033. The 25C tax credits are only available when the exterior doors or windows are installed in a dwelling unit located in the United States that is owned and used by the taxpayer as that taxpayer's principal residence.

Home improvements eligible for the Energy Efficient Home Improvement Credit include:

i. Exterior doors that meet applicable Energy Star certification requirements: 30% of costs up to $250 per door, up to a total of $500.

ii. Exterior windows and skylights that meet Energy Star Most Efficient certification requirements: 30% of costs up to $600.

Based on Section 25C of the Internal Revenue Code, as amended by the Inflation Reduction Act, JELD-WEN has determined that certain JELD-WEN window and door products meet the U-factor and Solar Heat Gain Coefficient (SHGC) ratings as determined through the National Fenestration Rating Council (NRFC) Product Certification Program requirements for ENERGY STAR Most Efficient and ENERGY STAR certification requirements when installed in the applicable ENERGY STAR climate zone.

To determine the U.S. climate zone where you live, please visit: **https://www.energystar.gov/products/building_products/residential_windows_doors_and_skylights/climate_zone/search.**

This certification statement should be retained by the taxpayer as it may be requested by the Internal Revenue Service (IRS). It is also necessary for taxpayers to retain the purchase receipt and the NFRC label for each eligible window or door.

Homeowners should consult with their tax advisor to confirm that they qualify for the tax credit. The extension of the tax credit for energy efficient windows and doors has new rules that may restrict eligibility depending on previous tax credits claimed for windows and doors.

For additional information on how to qualify for the tax credit, please visit our website at **www.jeld-wen.com/taxcredit**. This document is only intended to certify that JELD-WEN offers ENERGY STAR qualified options, and not as an assurance that a homeowner will qualify for the tax credit. JELD-WEN assumes no liability regarding the homeowner's ability to obtain any tax credits.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.
